

The International Association for Creative Meditation

**Meditation Groups,
Incorporated**

**The Sundial House Group &
The International Group for Creative Meditation**

The community of Living Ethics

During the International Meeting at Meditation Mount in September 2011 we visited surrounding places of interest. On the Wednesday morning in temperatures nudging 105°F the group members arrived at the Theosophical Society in Ojai.

A link was discovered between Krotona in Ojai, California and the Pythagoras Mystery School of Crotona in Italy. The Main Hall shown here, is able to seat up to 300 people and is often full to capacity when eminent visiting speakers are teaching here.

The Peace Garden within the grounds of Meditation Mount were recently consecrated. Its circular doorway symbolises the entrance into the Way of Silence.

Stones, carved with the six Laws and Principles have been energised with acts of dedicated ritual and serve as Way Markers. These touchstones are set at recollecting points within the garden. They invite a reconnection with all that is sacred, all that gives meaning and value within the busy-ness of everyday living.

**The Law of Right Human Relations & The Principles of Goodwill;
The Law of Group Endeavour & The Principle of Unanimity;
The Law of Spiritual Approach & The Principle of Essential Divinity.**

Members of the four international Creative Meditation groups are seen here lunching together on Thursday 8th September 2011 at Suzanne's Restaurant in Ojai, California.

The group members are shown here preparing for the Wednesday afternoon working session in the cool auditorium at Meditation Mount.

Here is a group photograph, taken in the auditorium on the evening of Friday 9th September 2011. This marks the end of the presentation by Marina Bernadi of the work of the Community of Living Ethics in Città della Pieve, Italy.
