Dear friends, Welcome.

We are continuing to come together as a group at the time of the full moon, to experience and explore group awareness as well as to work with cyclic energies. With the full moon in the period when the sun is in Aries, we commence again the yearly cycle of the zodiac, at the first of the 3 Spiritual Festivals – this the Festival of Easter.

At the time we call, “Full Moon”, the sun, moon and earth are in complete alignment - in other words, the light of the sun is reflected to earth by the whole face of the moon, and maximum light is reaching us from our Source of Life “from Whom all things proceed, to Whom all things return”, in the words of the Indian prayer, the *Gayatri*. It is a time therefore of increased magnetic potency; the ethers are charged with a more potent vibration than at other times, and it is upon this fact that, since time immemorial, religious rites and ceremonies of all kinds have been held at the time of the full moon.

[Meditation and the Rhythm of the Year. M.J.E. p66-67.]

As a group of creative meditators working rhythmically with a common goal and purpose, the group field becomes an invocative centre of energy dedicated to lifting and aiding humanity in times of need.

You will have received the paper with the excerpts for this full moon. Once again, we will share our considerations right after the reading. The sounding of our voices adds quality and enriches the tone of the group field thereby conveying the [resonance] of the needed creative qualities. [DNA 11 p 553]

The Aries full moon is dedicated to Christ, to the risen Christ, and it is called the Festival of Resurrection, and the energy of Aries is fiery. It charges and stimulates the divine spark in every form, causing a Resurrection, a striving and labour. Striving is the effort to the spirit to conquer matter, to conquer the body and emotions, and conquer time and space.

Resurrection is not an isolated catastrophic act it is a perpetual process. The divine spirit is always rising within humanity. The stone is always being rolled away from the tomb in order that the divine life may come forth in power and glory.

On the path of resurrection, we conquer our enemies – death, fear and hatred – through perseverance. In each stage of victory, a new civilisation, and a new culture are created. As the

inner Fire progresses from one Kingdom to another, the field of an individual's contact expands and eventually the whole existence becomes the field of their activity. This is "the life more abundant" to which Christ referred.

### **Alignment**

Let us begin our work with a short alignment. Sitting comfortably .... Close your eyes or lower your gaze and take a few deep breaths. Now allow the breathing to settle in a comfortable rhythm. Relax the physical body and feel it soften. Allow the emotions to become calm and serene and bring the mind to a focus, letting go of any previous thoughts. ....

Raise the consciousness towards the Soul and inwardly affirm:

***"I am a living, loving willing soul present in the here and now."***

### **The Affirmation of the Disciple:**

"I am a point of light within a greater Light.  
I am a strand of loving energy Within the stream of Love divine.  
I am a point of sacrificial Fire, focused within the fiery Will of God.  
And thus I stand.

I am a way by which men may achieve.  
I am a source of strength, enabling them to stand.  
I am a beam of light, shining upon their way.  
And thus I stand.

And standing thus revolve  
And tread this way the ways of men,  
And know the ways of God.  
And thus I stand."

### **Creative Meditation**

The task before the Aspirant, Humanity, in the month of Fiery Aries, is to use his/her purified Will-to-Good and power-to-manifest to stimulate the birth in the consciousness of spiritual Ideas from the mind of God. Thereby setting up a *burning ground*, in which the old and new ways of being and doing seek and battle to find the restorative vision of a point of synthesis or not.

This sign marks the beginning of a new annual cycle of opportunity for evolutionary growth and holds the restorative potential for the right use of Will in the way humanity structures and directs everyday life on the planet.

## **Group Fusion Mantram.**

We are one with our group brothers and all that we have is theirs.

May the love, which is in our soul pour forth to them.

May the strength, which is in us lift and aid them.

May the thoughts which our soul creates reach and encourage them.

## **VISUALIZATION**

Sitting quietly and relaxed/poised, endeavour to be a point of focused vision within the centre of the head, with the eye of the mind directed towards the soul as together we undertake the following visualisation.

You have plenty of time, endless time. Nothing is pushing you. There is complete soundless stillness, connecting with eternity. Listening expectantly with all your senses into the stillness, alert to that which will make itself known and grow within you.

Spend a moment visualising light. Then imagine within yourself a point of light that slowly becomes larger and larger and spreads over the whole of your body - and radiating outwards pierces the dark space around you.

See a door before you, and as you approach it you know that you must go out that way to shine and radiate more of your innate light. You open the door, bright daylight streams in. You step out to see a broad horizon and by doing so present yourself to the world as you are.

Free from fear and doubt, you escape the restrictions of the personality and open yourself to letting in more of the Light and Love which is in and around you. As a point of light within a greater Light, you resolve that you will do all you can to co-operate with the Light and become a channel to inspire and enlighten others

Together with other creative meditators, our light are merged and blended with the greater Light and thus we participate in and contribute to supporting the New Group of World Servers.

## **Reflective Meditation on the soul seed thought for Aries**

Give consideration to the seed idea of the soul in Aries. Mentally salute it and try to become attuned to its livingness and its vibration. Relate it to the present world conditions and happenings at the time, for example, specific areas of conflict or suffering, and meetings and conferences of local and international import. This helps to call in the energies to the points of greatest need and makes their aid and practical expression possible.

Ponder for a few minutes on its quality, nature and potentiality.

*I come forth and from the plane of mind, I rule.*

Through an act of dedication send out the idea of the living thought-form that has been created as a blessing into the stream of mental consciousness as the Dedication is sounded.

### **Dedication**

‘Into the light we move, beckoned thereto by thee.

Out of the dark we come, driven thereto by the soul of all.

Up from the earth we spring and into the ocean of light we plunge.

Together we come.’ – Djwhal Khul

### **Distribution and precipitation using the Great Invocation**

From the point of Light within the Mind of God  
Let light stream forth into human minds.  
Let Light descend on Earth.

From the point of Love within the Heart of God  
Let love stream forth into human hearts.  
May the Coming One return to Earth.

From the centre where the Will of God is known  
Let purpose guide the little human wills  
The purpose which the Masters know and serve.

From the centre which we call the human race  
Let the Plan of Love and Light work out  
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.
