

## CANCER FULL MOON

*First Day of Distribution - 4<sup>th</sup> JULY 2023 London 11:38:29*

Personality Aspect:

***Let isolation be the rule and yet the crowd exists.***

Soul Aspect : ***I build a lighted house and therein dwell.***

We are tracing the story of Hercules and endeavouring to recognise how he, in his twelve labours, played the part of the aspirant upon the Path of Discipleship. On it, he undertook certain tasks, symbolic in nature, and passed through certain episodes and events which portray for all time the nature of the training and attainments which characterise the person who is nearing liberation.

[Labours of Hercules © Lucis Trust Ltd. p4]

Each of us is an embryo Hercules; and each one of us faces identical labours, each of us has the same goals to achieve and the same circle of the zodiac to encompass.

[ibid P9]

As we study the story of Hercules and go with him through his twelve labours, passing around the great zodiac of the heavens, we will approach it from two angles: that of the individual and that of humanity as a whole.

[ibid p8]

The consciousness (we aspire to) is the consciousness that we are integral parts of a greater WHOLE, [...] Hercules [...] enacted the life story of every aspirant and demonstrated the part which the unit must play in the eternal enterprise.

[ibid p7]

He has to find himself as an individual only to discover that individualism must be sacrificed intelligently to the good of the group.

[ibid p9]

Under the rule of matter, we are immersed in fear, individualism, competition, and greed. These have to give place to spiritual confidence, co-operation, group awareness and selflessness. [This is the lesson that Hercules brings to us.]

[ibid p9]

The Myth can be taken as the sowing of the seeds of foundational ideas, which give rise to relationships within societies and communities that are birthing the ideals of the New Age. At the time of the full moon, we open to be receptive to these energies that are available, and we strive to anchor them in our daily lives on behalf of humanity, the Hierarchy and the Christ. We open up to them on behalf of humanity.

And in this gathering that is the second service we attempt to align with, at this time of the Full Moon and this first day of distribution.

The Capture of the Doe or Hind – Part 1 & 2

1. The Myth: On the horizon the temple of the Lord, nearby a slender fawn, p.77-78
2. The Myth: For a full year, the son of God followed the doe... p. 78-81
3. Synthesis of the four preparatory signs. p. 81- 83
4. The Meaning of the Story & the Lesson of the Labour, p 84 p.93-94

As we read and share, as we meditate and become receptive together, we enter a group field far richer and wiser than the sum of our individualities. We move closer to our spiritual confidence and group awareness.

## **Creative Meditation**

### **Alignment**

Sitting comfortably close your eyes or lower your gaze and take a few deep breaths. Then allow the breathing to settle to a comfortable rhythm - relax the physical body and feel it soften. Allow the emotions to become calm and serene - letting go of any previous thoughts. Raising the consciousness through the emotional and mental fields towards the Soul inwardly affirm silently or aloud:

*"I am a living, loving willing soul present in the here and now"*

Realise that Hercules shines a light onto the Way and highlights not only the challenges but the opportunities that humanity is collectively facing at present as we stand at the Gateway of Cancer.

### **Affirmation - The Mantrum of the Disciple**

Identifying the personal 'I' consciousness with the Soul consciousness - realising they are in reality one - silently affirm the Mantrum of the Disciple.

*"I am a point of light within a greater Light.  
I am a strand of loving energy Within the stream of Love divine.  
I am a point of sacrificial Fire, focused within the fiery Will of God.  
And thus I stand.*

*I am a way by which men may achieve.  
I am a source of strength, enabling them to stand.  
I am a beam of light, shining upon their way.  
And thus I stand.*

*And standing thus revolve  
And tread this way the ways of men,  
And know the ways of God.  
And thus I stand."*

Align your thinking to consider the Cancer Soul Message. Mentally salute it becoming attuned to its livingness and its vibration, its quality, nature and potentiality.

*I build a lighted house and therein dwell.*

Relate it to the present world conditions and happenings of the time, for example, specific areas of conflict or suffering - meetings and conferences of local and international import. This helps to call in the energies to the points of greatest need and makes their aid and practical expression possible.

### **Visualization**

Sitting quietly and poised..... endeavour to be a point of focused vision within the centre of the head, with the eye of the mind directed towards the soul ..... Send a line of light along the antahkarana into the spiritual realm, where we join with all others who are approaching the spiritual energies in meditation ...

Listening expectantly with all your senses alert to that which will make itself known and grow within you...

Holding your consciousness high in the head, imagine you are taking an excursion that takes you through a familiar or unfamiliar sunlit woodland setting:

Imagine you are sitting on the grass beside a quiet pool surrounded by trees, flowers and ferns. It is a quiet tranquil place. You can feel the coolness of the air and the earth beneath you whilst experiencing the sounds and smells of this woodland glade. You notice the stones and pebbles in the pool and the life active within it. The stillness and silence here create a peaceful tranquillity.

You decide to follow the stream feeding the pool. The pathway you follow leads gently upwards through the dappled woodland setting and you climb on through sun and shade, noticing as you go the different bird songs and sounds that surround you.

Finally, you reach a sunlit clearing at the top of the hill. At the other side of this there is a wooden cabin. its door is open. You decide to cross the stream, and on reaching the door you step over the threshold, and as you do so you are able to set aside the personality as a cloak and to enter as the pure, personal I-consciousness.

You cross the hallway and go into a room of silent stillness. Here you find the High Being whom you know innately as the Soul, the Teacher, the Master. In the presence of the Soul, the Master of your life, there is a moment of reverent recognition and dedication.

### **Dedication**

Using the creative imagination send out the idea of the living thought-form created as a blessing into the stream of mental consciousness as you sound the following dedication.

'Into the light we move, beckoned thereto by thee.  
Out of the dark we come, driven thereto by the soul of all.  
Up from the earth we spring and into the ocean of light we plunge.  
Together we come.'

Together we move, guided and led by the soul we serve and by  
thee, the Master we know.  
The Master within and the Master without are *One*.

That One are we. The One is all – my soul, thy soul, the Master  
and the soul of all."

The Tibetan - DINA II p.127

### **Precipitation and Invocation:**

Close by sounding the Great Invocation. Using the creative imagination to circulate and distribute throughout humanity's etheric network the energies contacted and the thought-forms created in the reflective stage, as well as, Light, Love and the Will-to-Good.

### **The Great Invocation**

From the point of Light within the Mind of God  
Let light stream forth into human minds.  
Let Light descend on Earth.

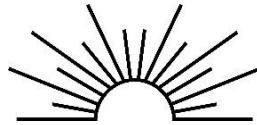

From the point of Love within the Heart of God  
Let love stream forth into human hearts.  
May the Coming One return to Earth.

From the centre where the Will of God is known  
Let purpose guide the little human wills  
The purpose which the Masters know and serve.

From the centre which we call the human race  
Let the Plan of Love and Light work out  
And may it seal the door where evil dwells.

Let Light and Love and Power restore the Plan on Earth.
